DUTCHLAND PLASTICS SETS ALL-TIME MONTHLY SALES RECORD

MARCH 2011 RANKS AS BEST EVER

APRIL 19, 2011 – Oostburg, WI – Dutchland Plastics has announced that their March 2011 sales results set a record for the highest monthly sales total in the history of the company.

“One of our parents’ (co-founders Bill and Nancy Claerbout) key principles was to surround yourself with good people,” said Carl Claerbout, Dutchland Chief Executive Officer and Owner. “This sales record could not have been accomplished without our entire team of good people.”

“We want to thank our key customers and suppliers,” added Daven Claerbout, Executive Vice President of Sales and Owner. “While this is an exciting announcement, we realize how quickly the economic climate can change. We will continue to challenge ourselves and our suppliers to find better manufacturing solutions of quality plastic products at competitive prices.”

Dutchland Plastics is a leading custom manufacturer of rotational and blow molded plastic products. Founded in 1967, today Dutchland Plastics provides product and services around the world. Dutchland Plastics is a private, family-owned business that is in its second generation of ownership.
